

The applicant is responsible for purchasing and installing informational signage on the site. If you have any questions, please contact the Development Applications Clerk at 604-276-4395.

### **Content**

The outline of the development site, as given in the application, must be outlined in **RED** for a *Rezoning Application*. The Development Applications Department, by letter, will provide the appropriate text for the sign shortly after the application has been submitted to the City of Richmond. Staff will provide updated information for public input opportunities to be added to the sign as the application progresses. Should the intent of the application change, it is the applicant's responsibility to ensure that the signage is altered as appropriate.

### **Size**

Signs should be approximately 1.2 m x 2.4 m.

### **Location**

Signs must be placed so that they can be clearly read from streets and be clear of all site obstructions. Where a site abuts two separate but unconnected improved public roads, two identical signs must be placed on the site, one on each road.

When placed at ground level the sign should be located within the site, approximately 3 m from any property line. The top of the sign should be approximately 2.4 m high.

When secured to the face or outside of a building the top of a sign should not be more than 4.8 m from the ground.

### **Installation**

Unless secured to a building, the sign should be supported only by posts and poles.

Signs must be installed in a sound, workmanlike manner, capable of withstanding wind and weather.

Signs must be posted and maintained, by the applicant, until Council has made a final decision.

### **Installation Notification**

The applicant or agent must advise the Development Applications Department when signs have been installed on site. The *Rezoning Application* will not normally be considered by Council unless the required sign has been in place for 14 days prior to the meeting.

### **Removal**

The sign must remain in place until Council has made a final decision on the application. The sign **must be removed** from the site no later than **14 days** after Council's final decision.
